

# Hoarding Pathway

## Level 1

### Signposting by the single agency

#### This could look like:

Household environment is considered standard. No specialised assistance needed. If resident would like some assistance with general household or feels like they are declining towards higher clutter scale, appropriate referrals can be made subject to age and circumstances.

#### Example:

- All Doors, stairways, and windows accessible
- No evidence of pests
- Clutter obstructs SOME functions of key living area – looks untidy.
- Safe Maintained sanitation conditions

## Level 2

### Multi-Agency Response

#### This could look like:

Household environment requires professional assistance to resolve clutter and maintenance issues in the property.

#### Example:

- Blocking of Doors, some windows, possibly major exit
- Some infestation of pests (e.g., bed bugs, lice, fleas, rats)
- Clutter obstructing functions of key living space, stairs, entrances, hallways etc.
- Evidence of non-maintained sanitation conditions (e.g., food preparation surfaces heavily soiled, lots of dirty dishes, obvious odours which irritate etc.)
- Evidence of burns to the carpet, clothing etc.

## Level 3

### Safeguarding Response

#### This could look like:

Household environment will require intervention with a collaborative multi-agency approach with the involvement from a wide range of professionals. This level of hoarding is a significant risk to the health of the householders, surrounding properties and residents. The occupier is often unaware of the implications of their hoarding actions and oblivious to the risk it poses.

#### Example:

- Whole rooms inaccessible, exits blocked, windows not able to be opened.
- Utilities cut off (e.g., no heating, gas capped)
- Heavy infestation of pests (rats seen, heard, reported by neighbours, cockroaches, fleas etc.)
- Key living spaces not available for use, person living in one room.
- Evidence of urine/excrement in room, rotting food, very insanitary conditions
- Evidence of previous fire or burns in the carpet, clothing etc.
