

Important information

The government are testing a mobile phone emergency alert on the evening of the 23rd April 2023.

The message will say –
This is a test of emergency alerts, a new UK government service that will warn you if there is a life-threatening emergency nearby.

This is a test. You do not need to do anything.

All mobile phones and tablets will get this alert.

Important information

Your mobile phone or tablet does not have to have Wi-Fi or mobile data to get the message.

You can choose not to have the alerts if you want to.

To do this you need to –

- Find **emergency alerts** in your settings
- Turn off **severe alerts** and **extreme alerts**
- If this does not work you should ask your phone provider how to do it.

If you know anyone who has a secret mobile phone to keep them safe, please tell them to switch it off or put it on aeroplane mode. This will stop the test message from coming through
