

Be concerned about bruising on babies

Bruising on babies that can't crawl or walk on their own is very rare and can be a sign of non-accidental injury.

Any bruising on immobile babies should prompt a referral to Children's Social Care.

Safeguarding is everyone's responsibility

If you believe a child is at risk of harm call 0300 555 0050 or complete a Request for Help and Support form via the Dudley Children's Portal: <https://childrensocialcare.dudley.gov.uk/>
